## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 drawn to a process for forming a face plate member, classified in class 29, subclass 888.01.
- II. Claims 10-25, drawn to a faceplate subassembly, classified in class 277, subclass 628.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case instead of cutting the subassembly, the portion could be molded or shaped formed and would not require cutting.
